

The McKenzie

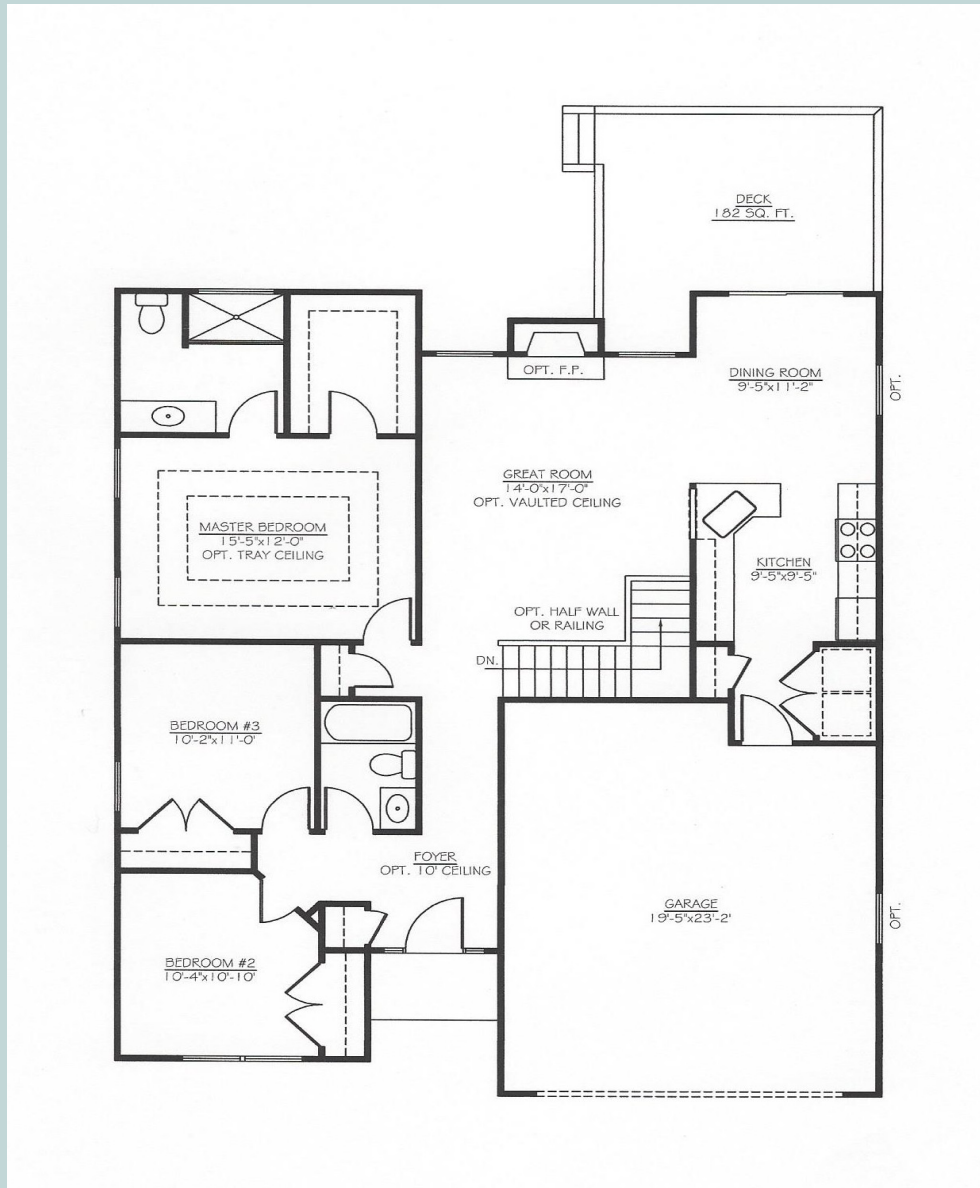

The McKenzie Model

The McKenzie ranch offers single floor living with a smart and stylish layout. The popular, open concept floorplan is great for gathering with family and friends. The McKenzie can be customized to meet your lifestyle. The base model has 3 bedrooms, 2 baths and a 2-car garage. The Master Suite features a private bath and walk-in closet. A vaulted ceiling can be added to the great room for a dramatic touch. The spacious basement can provide additional living area for a media room, rec room or additional bedrooms and bath. Many custom features are available including a finished basement, luxury Master Bath, site finished hardwood floors, custom cabinets and millwork, granite countertops, gas fireplaces, Trex cast stone and brick accents and more. We welcome your custom revisions! Please inquire with our sales staff for more options and information.
